

FULLSENSE NEXT LEVEL MILKING ROBOT SOFTWARE

Get to know FULLSENSE. The software solution that turns complex data into information that makes it easy to make the right decisions for your dairy farm. From cow health and milk quality to efficiency of feeding and maintenance. Discover the possibilities.

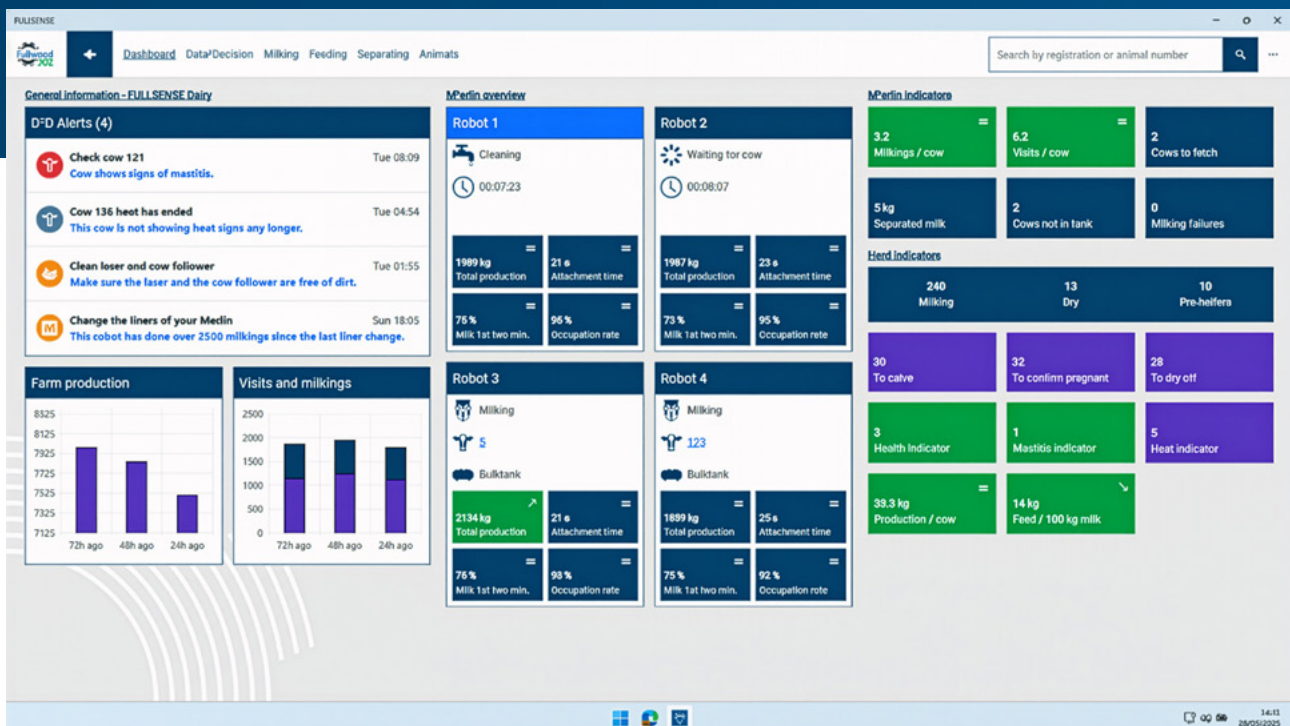

- ⚙️ **Our dashboard:** Navigate towards your goals, focussed on your farm performance
- ⚙️ **Data²Decision:** Get notified, be informed, remain updated and receive guidance
- ⚙️ **Feed, milk & routing plans:** Unlock the full potential of your herd with plans based on your needs and our expertise

Fullwood

SUCCESSFUL MILKING IN ONE VIEW

At Fullwood, we believe our milk technique increases profit on any type of farm. With FULLSENSE we set goals, tailored to your unique dairy farm. Our FULLSENSE, with its clear and easy to read dashboard helps you to navigate towards these goals and maintain your next performance level.

INTUITIVE DASHBOARD

- Be updated with the most recent notifications from our Data²Decision system
- Keep an eye on today's farm production and visit & milking routines
- Monitor your M²erlin milk robot and maintain optimal operation levels
- A set of tiles tell a clear story about your herd and machines. No digging. No guessing.

Things to do

Blue
All good

Fullwood blue is good for you.
It's not just a colour. It's the sign of perfection.

FULLSENSE: DRIVEN BY INSIGHT. FOCUSED ON OUTCOMES.

FULLSENSE gives you a clear overview of your cows, robots, and routines:

- ⌚ Get notified when something needs attention
- ⌚ See what's wrong and how to fix it
- ⌚ Receive smart guidance into solution based on your unique dataset
- ⌚ Boost performance without extra hassle

DATA TO DECISION

Easy to maintain message box. Check robot performance & herd health in a few minutes.

- ⌚ Get notified on the issue
- ⌚ See the context of the problem
- ⌚ Change animal settings and resolve

HERD PLANNING

Unlock the full potential of your herd through plans based on our expertise in the farming industry.

- ⌚ Milk plans that keep cows coming to the robot at the right time
- ⌚ Feed plans that allow for higher and persistent lactation peaks
- ⌚ Separation plans that are designed around your daily routine, not the other way around

FULLSENSE MOBILE

Always and everywhere insight into your herd, directly from your smartphone

- ⌚ See at a glance which cows need attention
- ⌚ Quickly check individual cow data and performance
- ⌚ Receive notifications for important events or robot alerts
- ⌚ Easily separate your cows
- ⌚ Give your cows permission to be milked

WHERE INSIGHT MEETS ACTION

EASY MANAGEMENT

Improving the live of dairy farmers with smart milking solutions

- ⚙ 240 years of dairy expertise turned into easy to grasp screens
- ⚙ Large amounts of data translated into concise and easy to read messages
- ⚙ Not just a notification, but smart guidance into solutions

INCREASED YIELDS

Increasing yields with clever milk techniques

- ⚙ Monitor milking performance daily, without opening multiple tools
- ⚙ Set clear targets and track progress with simple visuals
- ⚙ Use peak-feeding plans to drive higher, longer-lasting milk yields

COW COMFORT

Milking solutions that put cow comfort and udder health upfront

- ⚙ Milk plans that optimize robot visit frequency
- ⚙ All health indicators at your fingertips in our cow centric Data²Decision screen

FLEXIBLE APPROACH

A farm tailored approach, as every situation is different

- ⚙ Suited and customized to your farm setup, routines and targets
- ⚙ Control the herd yet remain an eye on every cow
- ⚙ All settings on herd level and cow individual
- ⚙ ICAR API for data exchange with various partners
